GLOBAL METAL & GLASS ABOUT US

Global Metal and Glass is an established company that specializes in the design, fabrication, and installation of high-quality aluminum and glazing works. We offer a wide range of services that are not limited to windows, doors, curtain walls, glass balustrades, skylights, glass partitions, and louvers. Our team of experts are highly skilled and experienced in delivering customized and innovative solutions that meet our client's unique needs and requirements.

At Global Metal and Glass, we are committed to delivering exceptional quality and service to our clients. We use only the best materials and employ the most advanced techniques in our fabrication and installation processes. Our goal is to provide our clients with products that are not only aesthetically pleasing but also functional and durable.

Whether you are looking for bespoke designs for your commercial or residential space, our team is dedicated to working with you to bring your vision to life. We pride ourselves on our ability to complete projects on time and within budget while maintaining the highest level of quality.

GLOBAL METAL & GLASS MISSION

Our mission at Global Metal and Glass is to design, fabricate and install customized aluminum and glazing works that enhance our clients' spaces' beauty, functionality, and value. We are committed to providing exceptional quality and customer service, utilizing only the best materials and employing advanced fabrication and installation techniques. We strive to build long-term relationships with our clients and exceed their expectations by delivering innovative solutions that meet their unique needs and preferences. We are dedicated to creating a safe, inclusive, and collaborative work environment that fosters creativity, innovation, and excellence

VISION

Our vision at Global Metal and Glass is to be a leading provider of high-quality aluminum and glazing works, renowned for our innovative designs, exceptional quality, and outstanding customer service. We aim to consistently exceed our clients' expectations by delivering bespoke solutions that are not only aesthetically pleasing but also functional and durable. We aspire to be a trusted partner to our clients, delivering unparalleled value and excellence in all our endeavors.

CUSTOMIZED SOLUTIONS

Whether you are looking for bespoke designs for your commercial or residential space, our team is dedicated to working with you to bring your vision to life. We understand that each project is unique, and we take the time to understand our clients' needs and preferences to deliver customized solutions that meet their specific requirements.

. EXCELLENT CUSTOMER SERVICE

At Global Metal and Glass, we are passionate about exceeding our clients' expectations. We pride ourselves on our ability to complete projects on time and within budget, while maintaining the highest level of quality. We are dedicated to building long-term relationships with our clients and providing excellent customer service throughout the project lifecycle.

. COMPETITIVE PRICING

We pride ourselves on offering competitive pricing without compromising on quality. Our goal is to deliver exceptional value to our clients, and we work hard to ensure that our pricing is transparent, fair, and reasonable.

GLOBAL METAL & GLASS WHY CHOOSE US

Choosing Global Metal and Glass as your preferred provider of aluminum and glazing works comes with a range of benefits. Here are a few reasons why you should consider working with us:

. **EXCEPTIONAL QUALITY**

At Global Metal and Glass, we are committed to delivering exceptional quality in all our products and services. We use only the highest quality materials and employ advanced fabrication and installation techniques to ensure that our products are not only aesthetically pleasing but also functional and durable.

. WIDE RANGE OF SERVICES

We offer a wide range of services that are not limited to windows, doors, curtain walls, glass balustrades, skylights, glass partitions, and louvers. Our team of experts are highly skilled and experienced in delivering customized and innovative solutions that meet our clients' unique needs and requirements.

DESIGN & VALUE ENGINEERING

At Global Metal and Glass, we specialize in providing facade design services that cater to the needs of lead consultants, architects, and clients. Our team of experts has extensive experience in advising architects on performance strategies, buildability issues, material selections, and cost distribution decisions to ensure that every project we undertake is delivered to the highest standards.

Our services in facade design include concept and design development, where we work closely with our clients to understand their specific requirements and design aspects. We propose material options and specifications that meet the performance targets, as per the client's requirements.

ENVIRONMENTAL SUSTAINABILITY

At Global Metal and Glass, we understand the importance of environmental sustainability and are committed to minimizing our impact on the environment. We strive to incorporate sustainable practices into every aspect of our business, from the materials we use to the fabrication and installation processes we employ.

In line with our commitment to environmental sustainability, we adhere to the requirements of the Global Sustainability Assessment System (GSAS). The GSAS is a comprehensive sustainability certification system that assesses the environmental, social, and economic impact of buildings and infrastructure projects.

ENGINEERING, FABRICATION AND INSTALLATION

CURTAIN WALL

- Unitized Curtain Wall System
- Stick Curtain Wall System
 - Structure Glazing Curtain Wall
 - Conventional Curtain Wall (With Pressure plate & Cover Cap)
 - Slim Curtain Wall System
- Point Fix and Frameless Glazing Facade
 - Spider System with
 (Glass Fins, Steel Frames, Tension Rod and Tension Wire)

SKYLIGHTS

- Structure Glazing Skylight
- Conventional System Skylight
- Openable & Movable Skylights (Manual & Motorized operator)

ALUMINUM WINDOWS

- Hinged Windows
- Sliding Windows
- Tilt in and Push out Windows
- Tilt and Turn Windows
- Concealed windows
- Pivot Windows
- Motorized operator windows

ALUMINUM DOORS

- Hinged Doors
- Swing Doors
- Sliding Doors
- Lift and Slid Doors
- Folding Doors

ENGINEERING, FABRICATION AND INSTALLATION

SLIM AND PANORAMIC ALUMINUM SYSTEMS

- Slim Pivot Doors
- Slim Sliding Doors

ALU WOOD WINDOWS AND DOORS

- Alu-Wood Hinged Doors & Windows
- Alu-Wood Tilt and Turn Windows
- Alu-Wood Sliding Doors & Windows
- Alu-Wood Lift & Slide Doors

ALUMINUM COMPOSITE PANEL CLADDING

- Fire-rated and non-Fire rated Cladding
 - Standard And Metallic Finish
 - Wood and Stone Effect Cladding
- Honeycomb Cladding System

CANOPIES & SUNSHADES

- Aluminum Cladding Canopies
- Glass Canopies
- Stainless steel cladding Canopies
- Aluminum Sunshade

STEEL STRUCTURE WORK

ENGINEERING, FABRICATION AND INSTALLATION

GLASS PARTITIONS & SHOWER DOORS

- Frameless Glass Partitions
- Acoustic Glass partitions
- Demountable Glass Partitions
- Shower Doors and shower Partitions

AUTOMATIC DOORS

- Automatic Sliding Doors
- Automatic Sliding Doors with Breakout System
- Automatic Hinged Doors
- Automatic Curved Sliding Doors
- Revolving Doors

ALUMINUM DECORATIVE MASHRABIYA

- Aluminum Perforated Panels
- Aluminum Assembled Sections

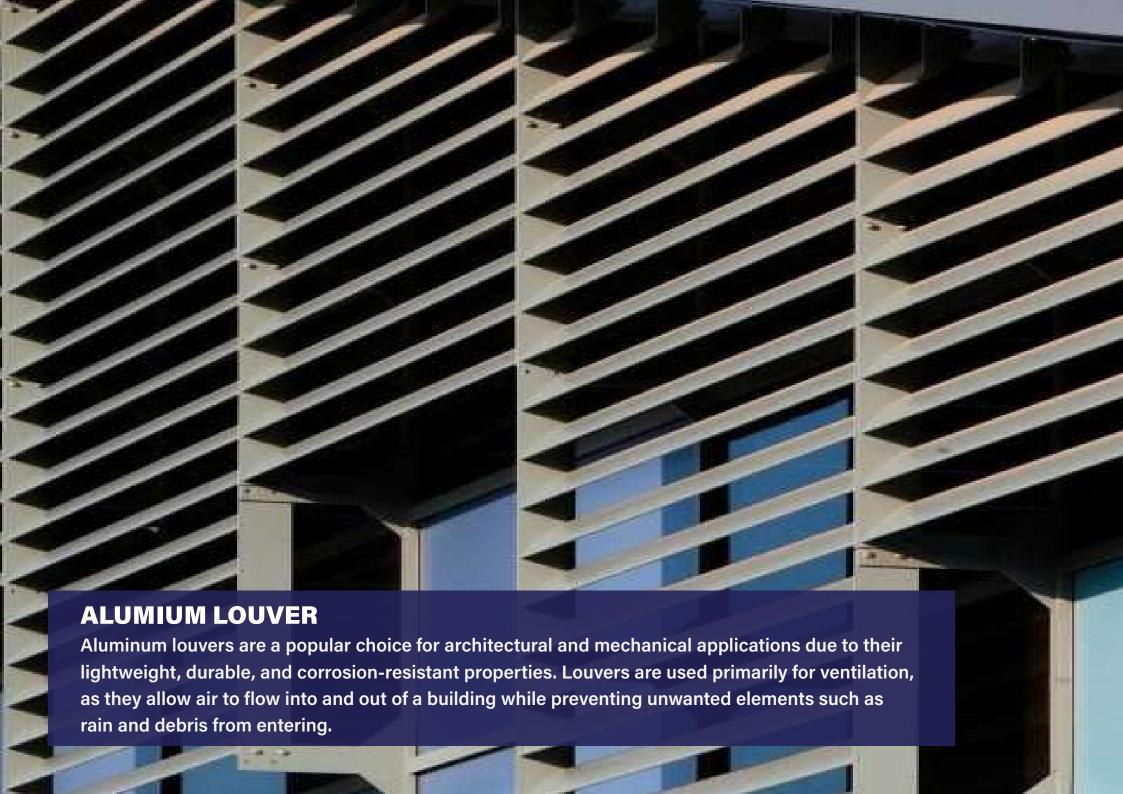

RAILING SYSTEM

- Glass Balustrade
- Aluminum Handrails System
- Steel Handrails
- Stainless-Steel Handrails

ALUMIUM LOUVER

- Architectural Louver
- Mechanical Louver
- Sand trap Louver
- Acoustic Louver

CURTAIN WALL

The application of curtain wall glazing is instantly being used at high-rise commercial and residential towers, institutional and Monumental buildings, Shopping malls, and Hotel developments.

The curtain wall is characterized by colored vision and spandrel glass areas, a grid of aluminum caps, and most recently with metal or stone spandrel covers. It is also combined with other types of cladding systems such as precast, brick, or stone to create attractive and durable building facades.

FIXED & OPENABLE SKYLIGHTS

Our skylights help bring the outside in, delivering unmatched quality, beautiful results, and a brighter home for your family. We have all the skylight options and information you need to make a decision that's right for your home. When you're ready to add more natural light and fresh air from above with skylights

TILT AND TURN WINDOWS

ALUMINUM WINDOWS

Be it aluminum hinge windows, sliding windows, or tilt-and-turn windows, we provide you with different types of windows with various stained glasses that suit your taste. For instance,

we provide opaque, transparent, colored glass, translucent, etc. which you can choose as per your space.

SLIDING SYSTEM

Sliding doors improve the design and accessibility of any building type. With large easy-to-operate glazed surfaces, you can bring sunlight inside and create open spaces in an instance. Specific sliding solutions such as open corners, high-insulation systems, integrated flyscreens and motorised variants improve your daily comfort even more.

FOLDING SYSTEM

Folding doors offer maximum space efficiency and small sightlines. Combining up to eight vents, the aluminium system makes the border between interior and exterior disappear in an instant. From 2 to 8 vents, opening any way you want

ALU WOOD WINDOWS

The aluwood systems are the result of modern design which elegantly combines the top quality of aluminium with the leading aesthetic style of wood. The connection of aluminum and wood is achieved with special clips which allow air circulation for avoiding corrosion from water condensation. In aluwood systems, polyamide is used for increased thermal insulation. The aluminum exterior has demonstrated its strength and durability on products. The interior of the window consists of handsome and solid wood which is effectively shielded from the ravages of wind and weather. The result is – highly efficient, contemporary and long-life windows and doors.

SPIDER SYSTEMS

Spider glazing is a practical solution for exterior glass structures. Spider glazing provides structural support to high-end glass structures with point fixing constructed out of stainless steel.

These fixings absorb and distribute the dynamic and static loads of the glass structure throughout the building, ensuring that the spider glass construction are safe and efficient.

ALUMINUM CLADDING

- Fire-rated and non-Fire rated Cladding
- Standard And Metallic Finish
- Wood and Stone Effect Cladding
- Honeycomb Cladding System

ACOUSTIC & DEMOUNTABLE GLASS PARTITIONS

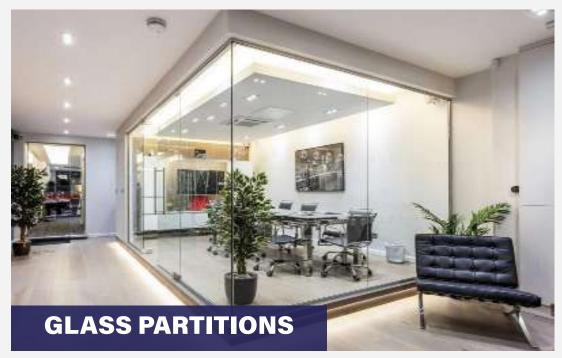

Whilst single and double-glazed glass does provide a level of sound treatment, fixed acoustic glass goes one step further, boasting up to a further 50% noise reduction.

Acoustic glass partitioning is compatible with either single-glazed or double-glazed glass, depending on your required acoustic ratings. The fixed single-glazed acoustic glass will provide sound protection of up to 37dB, whereas double-glazed acoustic glass offers 46-50 dB.

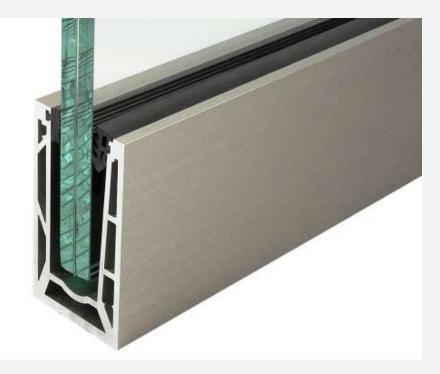

ROLL UP SHUTTERS

Choose your method of operation, color, slat time, and other features to ensure that your rolling shutter meets your unique needs! We build every shutter in our facility in Qatar for homes and businesses using the finest materials, motors, and technology
